CAMOUFLAGE TAPE

Helps keep others from seeing your private information.

innovation + style

Hide complete sentences or just a single letter.

Kes'pon Camouflage Tape is an ideal tool for when you want to selectively block out information in documents you wish to keep or distribute to other parties. The unique pattern effectively covers printed text in clean straight lines.

■ Smooth application

The retractable mini roller head glides smoothly over paper. It resists sideways motion to create neat and clean strips of camouflage tape. When you are done making corrections, retract the head for storage.

■ Handy size

Fits easily in your hand and is just as easily stored in your pocket, a pencil case or desk drawer.

■ 2 Way corrections: Pull or push

By pushing or pulling, you have more precise control. Pulling is best for longer corrections, such as full sentences. Pushing works well when you want to correct single letters. (When using the push method, flip the tape over.)

■ Replaceable tape cartridge

The tape cartridge can be quickly and easily removed and replaced. Although small, the cartridge holds 6 meters of correction tape. With replaceable core, there is less plastic to dispose of which is better for the environment.
